

IndigoVision

Control Center Mobile

Security management on the go

IndigoVision Control Center Mobile extends the surveillance capabilities of Control Center far beyond the control room to provide situational awareness on the move. Security personnel can monitor live video, control PTZ cameras and manage alarms from any location over mobile and wireless IP networks using a mobile phone, tablet or PC-based web browser. Control Center Mobile synchronizes to the Control Center site database so that it always reflects the current system configuration.

- Familiar touch and swipe gestures
- High quality real-time video
- Full PTZ control
- Receive, acknowledge and clear alarms from Control Center
- Available for Apple iPhone, iPad and Android compatible smartphones and tablets
- PC-based web browsers also supported (Firefox and Google Chrome)
- Supports ONVIF cameras from IndigoVision or 3rd parties
- Cyber secure by design - all communication encrypted
